Previous ISSUE Released at 11:30 AM (CANBERRA TIME) 22/11/2010

Summary

About this Release

The National Regional Profile (NRP) presents, for all Australia, a range of data for various types of small regions. Data are available for Local Government Areas, Statistical Local Areas and other larger geographies.

The NRP is intended for users interested in the characteristics of regions and in comparing regions across Australia. Data are presented as a five year time series, where available. These data are organised under the broad topics of Economy, Population/People, Industry, and Environment/Energy. Data for individual regions are available in web pages, Excel spreadsheets, and all regions are available in SuperTABLE data cubes and in a single .csv file. Users can search for a region using the region name or by using a map.

To find the latest NRP data please see the Data by Region navigator. For previous NRP data please see National Regional Profiles: Past Issues.

Data Cubes (I-Note) - Data Cubes

Please note that SuperTABLE does not distinguish between zero and annotations such as 'n.a' (not available) and 'n.p.' (not published) - these all appear in the SuperTABLE datacubes as '-'. The Excel spreadsheets (including those attached to each region) do contain zero, n.a. and n.p. as appropriate.

Data Cubes (I-Note) - Data Cubes

25/03/2011 This data cube has been updated to include state/territory and Australia level data for Family Tax Benefit data items.
